

SHUBHAM BISHT

Portfolio LinkedIn 8699391033 shubh17bisht@gmail.com github.com/Shubhithebeast

SUMMARY

Software Engineer with experience designing and optimizing scalable APIs, automating cloud deployments, and improving production reliability. Skilled in Node.js, Java, Docker, and MongoDB, etc with hands-on exposure to CI/CD and enterprise-grade applications.

SKILLS

Languages: Java, JavaScript, Python, C++, SQL

Backend & Frontend: HTML, CSS, Node.js, Express.js, React.js, AngularJs, Spring, REST APIs

Databases: MongoDB, PostgreSQL, Firebase, MySQL, Redis

DevOps & Cloud: Docker, Kubernetes, GCP (Anthos), Helm, CI/CD, Git, Linux, Jenkins

AI/ML: NLP basics, Word Embeddings, Transformer Attention, LLM Integration (Foundational)

EXPERIENCE

Associate Software Engineer

Sept 2024 – Present

Opentext, Bangalore

- Upgraded ContentConnect (Outlook Add-in) from **Node.js 20 to 24**, refactoring legacy modules for improved stability.
- Implemented check-in/check-out in SmartView (Teams Add-in) and fixed **40+** production defects.
- Automated demos using PowerShell and MS Graph APIs, reducing manual effort by **90%**.
- Optimized Docker images by **20–40%** (500MB–1GB), improving deployment speed and efficiency.
- Built CI/CD pipelines on GCP (Anthos) with Kubernetes for automated cloud deployments.
- Supported cloud-native deployments and production troubleshooting in distributed environments, ensuring release stability.
- Collaborated in Agile/Scrum environment with cross-functional teams for iterative feature releases.

Software Engineer Intern

May 2024 – Aug 2024

Opentext, Bangalore

- Automated end-to-end testing for Web Application using Selenium WebDriver and Java, creating **70+ test cases** and reducing manual testing effort by 80%.

PROJECTS

PahadiLingo - Cultural Language Learning Platform

Sept. 2023 – Present

Technologies: React.js, Firebase. ||  

- Achieved **Cross-platform application with seamless compatibility on Android and the Web**
- Crafted an engaging, user-friendly project structure to promote active content creation for an evolving database.
- Developed a user-friendly **Search Functionality** for quick word lookups and added the ability for users to mark and revisit preferred Pahadi words conveniently in the **Favorites**.
- Led a community of **50+ Pahadi linguists** for user testing and building, enriching the app's content and inclusivity.

VideoTube - Video Streaming Backend Platform

Dec 2024 – Present

Technologies: Node.js, MongoDB, Express.js || 

- Developed scalable **REST API (35+ routes)** for a video streaming platform backend using Node.js, Express.js, and MongoDB with **JWT-based authentication, refresh tokens**, and role-based access control.
- Implemented comprehensive features including video upload/management, subscriptions, playlists, social interactions (likes, comments, tweets), and watch history tracking.
- Optimized MongoDB queries using aggregation pipelines and indexing, improving response time by **40%**.

- Designed **production-ready architecture with custom error handling, async wrappers, bcrypt password hashing**, and standardized API responses following industry best practices.

Talkies - Real-Time Chat Application

Apr 2024

Technologies: MERN Stack, Socket.io, WebSockets, RESTful APIs. ||  

- Developed a full-stack real-time chat application using the **MERN stack** (MongoDB, Express.js, React.js, Node.js) with Socket.io for instant **bidirectional communication**
- Implemented secure user authentication and authorization using **bcrypt, avatar customization**, and contact management features.
- Built a **responsive, modern UI** with React Hooks, Styled Components, and React Router with real-time message updates and emoji support.
- Designed **RESTful API** endpoints with Express.js and integrated MongoDB with Mongoose for efficient data modeling and persistent storage of user profiles and chat history

QuotesApp

Nov 2023

Technologies: MERN Stack. ||  

- Built and deployed a full-stack **MERN Quote App** with a React frontend and Node.js/Express backend connected to MongoDB Atlas.
- Designed REST APIs for random quote retrieval, **author-based search, and usage stats**, with improved error handling and response consistency.
- Implemented user-facing features like **favorites** persistence (localStorage), **copy/share actions**, responsive UI, and stable quote-card layout.

EDUCATION

B.E. in Computer Science

Chitkara University, Punjab

 2020–2024
CGPA: 9.0

Higher Secondary (12th)

Army Public School, Punjab

 2018–2020
82%

ACHIEVEMENTS

- Solved **500+ DSA problems** (1400+ rating) on LeetCode.
- **5 Star** in Java, C++, and Problem Solving on HackerRank.
- Strong foundation in Data Structures, Algorithms, and Object-Oriented Programming.
